

CREATING A STANDARD

The Institute for Green Business Certification, Inc. (IGBC www.gbcertified.com) sustainability program defines key areas and specific guidelines in categories such as **Recycling, Office Paper Usage, Water Conservation, Energy Conservation, Waste Reduction, Environmentally Friendly Purchasing, Pollution Prevention, Chemical Usage Reduction, and Vehicle Emission Reduction** all in compliance with elements of EPA and OSHA regulations.

IGBC is believed to be the oldest international organization of its kind to certify **business environmental practices**.

IGBC will not offer products nor do they endorse or sell anything and they do not charge for their literature.

The **Institute for Green Business Certification, Inc.** is a third party accrediting organization serving the U.S., Canada, South and Central America, and soon to be Asia, South Africa and Europe.

IGBC provides environmental internal management, sustainability consulting and training to individuals, businesses and organizations. IGBC's 38 page Audit defines what it means to be a "**Green Business**" and is becoming the standard for the industry.
